Referral for Nathan Najib

Nathan Najib contacted us when he saw that we were advertising our North New Brighton property privately on Trademe... and as every good sales person he was very passionate and persuaded us to meet with him.

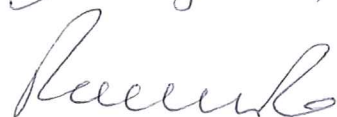

We allowed Nathan to work alongside us to sell our house, while we continued to do our own thing on Trademe. Throughout the process Nathan had endless enthusiasm, energy and passion. He was always so polite, helpful and friendly; working very hard on our behalf. He conducted open homes and presented himself very well, and his great car & harcourts flag worked well to attract good attendance to the open homes!

In the end it took Nathan just under 3 weeks to get us an impressive offer on our property, which we decided to take – even though we had other private offers on the table. He even came around after his boxing training in the evening to put the SOLD sign out the front!

If you want a real estate agent to work hard, be pro-active, present you with a lot of advertising options and get you a great result I would recommend you contact Nathan – if he hasn't contacted you first!!!

Nathan, Thanks again for your assistance.
If Nathanael and I are selling another property in Christchurch we will be in touch. All the very best for the rest of 2010!

Best regards,

Rachel Ross
